November 3rd & 10th Reaching the Children, Caring for the Educators: How Early Educator Self-Care Impacts the Social-Emotional Development of Young Children **6:30-9:00 pm**
CEU Event

Instructor: Stephanie McAvoy, Healthy Social Behavior Specialist with CCRI, Inc.

Teaching young children can be mentally, physically, and emotionally demanding. This is especially true for those educators that are teaching children that exhibit challenging behaviors. If not effectively managed, these demands can result in chronic illness and a stressed educator. In order for educators to facilitate positive growth within young children, they must be “*well*” themselves. In this training, participants will explore the impact teacher job stress has on teaching practices and the importance of self-care for the educators’ well-being. (**\$25.00 for .5 CEU credit or 5 DCDEE contact hours**) ***Must register via www.childcareresources.org**

Instructor: Leigh Broome, Social Behavior Specialist at Stanly County Partnership For Children

A teacher’s words have the power to affect all areas of a child’s development. Using intentional language, teachers can provide a foundation for a child’s cognitive, physical, and social-emotional growth. Participants will explore how children use behavior to communicate and use this information to revise and adapt the environment to reduce undesirable behaviors. (**2.0 DCDEE contact hours/\$7.00**)

December 3rd Staying on Track **6:30-8:30 pm**

Instructor: Stephanie McAvoy, Healthy Social Behavior Specialist with CCRI, Inc.

Why are daily classroom routines and schedules so important in the daily lives of teachers and young children? How does following a consistent daily schedule with embedded routines support the social and emotional development of the children in your class? What can we do to help children “stay on track” as they move through a typical preschool/classroom day? Through this training you will receive answers to these questions and develop a deeper understanding of the role of schedules and routines in supporting healthy social-emotional development for all children.

Attention

The above listed professional development trainings will be available during the fall months as long as we are allowed to meet in groups of 10 or more according to state laws. We will follow the social distancing rules of 6 feet of separation and each participant will have their own table to sit at during the training.
