Emotional literacy-the ability to identify, understand and respond to emotions in yourself and others in a healthy manner-it is basic to school readiness! We'll examine the many benefits of children who gain a strong foundation in emotional literacy, explore simple ways in which you can foster emotional literacy in your classroom, and share some excellent resources for tools and activities teachers can incorporate into their daily classroom curriculum to make intentional teaching of emotions fun and easy. **(2.0 DCDEE contact hours/\$7.00)**

This training will help participants understand the benefits of taking children outside daily and provide suggestions on how to create spaces for infants and toddlers outside that support all areas of learning and introduce them to the natural environment. Finally, participants will be given ideas on what activities can be included in their outdoor spaces. This training provides information that supports ITERS-R subscales: Space and Furnishings, Personal Care Routines, Activities, and Interactions. **(2 DCDEE contact hours/\$7.00)**

April 8th Building Relationships to Promote Student Success 6:30-8:30 pm

Instructor: Leigh Broome, Social Behavior Specialist at Stanly County Partnership For Children

As early childhood educators, the most important thing we can do is to build positive relationships with every child and family. These relationships are the foundation on which a thriving classroom is built. Additionally, we will delve into successful classroom team relationships. This training will use the concepts at the foundation of the CSEFEL Pyramid Model to look at ways to build positive relationships with children, families, and co-workers. **(2.0 DCDEE contact hours/\$7.00)**

April 13th Using Sign Language with Infants & Toddlers *VIRTUAL TRAINING* 6:30-8:30 pm

Instructor: Priscilla Hayes, Infant-Toddler Specialist with CCRI, Inc

Teaching infants and toddlers to use sign language gives them the opportunity to see, feel, and hear language. This professional development experience will guide you through the discovery of how to use sign language as a tool to promote children's confidence, classroom management, and form connections. Participants will learn the benefits of using sign language with young children, how to use basic sign language, and identify strategies for implementing sign language in their classroom environment. **(2.0 DCDEE contact hours/\$7.00)**

April 20th Room Arrangement as a Teaching Strategy 6:30-8:30 pm

Instructor: Gay Huneycutt, Technical Assistant Specialist with SCPC

A well-ordered classroom promotes learning, helps build classroom community, and frees teachers to observe and interact with children in positive ways. Room arrangement is a powerful teaching strategy when used well. See how a poorly organized environment can work against children and teachers, and how a well-organized room can work better for the children in your care making both learning and teaching more creative, rewarding, and enjoyable. **(2.0 DCDEE contact hours/\$7.00)**

April 20th Staying on Track *VIRTUAL TRAINING* 6:30-8:30 pm

Instructor: Stephanie McAvoy, Healthy Social Behavior Specialist with CCRI, Inc.

Why are daily classroom routines and schedules so important in the daily lives of teachers and young children? How does following a consistent daily schedule with embedded routines support the social and emotional development of the children in your class? What can we do to help children "stay on track" as they move through a typical preschool/classroom day? Through this training you will receive answers to these questions and develop a deeper understanding of the role of schedules and routines in supporting healthy social-emotional development for all children. **(2.0 DCDEE contact hours/\$7.00)**
